

Accessory

The SafeHome Wireless Alarm system can be divided into 8 zones – each with an unlimited amount of sensors, sirens and dial-up units.

Customize your alarm to fit your needs!

Wireless Vibration Sensor

Accessory for Wireless Alarm System WS500S

The SafeHome Wireless Vibrations sensor which triggers the alarm when breakage or vibrations are detected.

A standard door-/window sensor is not always the best way to secure a window, as burglars often breaks of the lists around the glass, tilts out the window and crawls in without ever opening the windowframe.

A vibrationsensor is mounted on both frame and glass. If a burglar attempts to remove the lists or breaks the glass to access the hinges, the alarm will be triggered, before actual entry is ever made.

SafeHome Trådløse vibrationssensor er en tilbehørsenhed til SafeHome Trådløse Alarmanlæg, som sender ved knusning af glas eller vibrationer i glasset. En dør-/vindueskontakt er ikke altid det bedste valg til at sikre et vindue, da ruder ofte listes ud ved indbrud, hvorefter tyven kravler igennem karmen, der aldrig åbnes. En vibrationssensor monteres på vinduesramme og den ledningsførte sensor monteres på glasset i vinduet.

Når tyven forsøger at fjerne listerne rundt om ruden, eller knuser ruden for at åbne hængselne, udløses alarmen, så vedkommen aldrig når at komme ind i bygningen.

Features / KSP

- Triggers alarm upon glass breakage
- Trigger alarm upon glass vibrations
- Triggers alarm upon list removal
- Up to 100m range
- Easy Installation
- Long battery life
- Alarmsign Included

Tech specs

- Low battery indicator
- Cord length: 30 cm
- Dimensions (mm) / weight (g):
Sensor: 35/35/6, 30
Transmitter: 88/40/15, 8
- Battery: 2 x 1,5V AAA Alkaline (not incl.)
- Frequency: 868 MHz
- With screws, plugs, adhesive tape

Packing specs

- Blister pack, Eurohanger
- 4 language (UK, DK/SE/NO)
