

**Accessory**

The SafeHome Wireless Alarm system can be divided into 8 zones – each with an unlimited amount of sensors, sirens and dial-up units.

Customize your alarm to fit your needs!

## Wireless Water Sensor

### Accessory for Wireless Alarm System WS500S

Most building are installed with water. This being a dishwasher, washingmachine, water tap, fish tank etc. These containers or installations can sooner or later cause leakage and - depending on pressure - water damage and flooding.

In addition rain and melt water can cause flooding with consequential damage.

A SafeHome Water Sensor is installed in proximity to the watersources or risk areas of the building and triggers the alarm when water is detected.

## Features / KSP

- Triggers when water is detected
- For basement, wetroom, tank and all other waterinstallations
- Up to 100m range
- Easy Installation
- Long batterylife
- Alarmsign Included

## Tech specs

- Low battery indicator
- Cord length: 30 cm
- Dimensions (mm) / weight (g):  
Sensor: 48/34/11, 30  
Transmitter: 88/40/15, 26
- Battery: 2 x 1,5V AAA Alkaline (not incl.)
- Frequency: 868 MHz
- With screws, plugs, adhesive tape

## Packing specs

- Blister pack, Eurohanger
- 4 language (UK, DK/SE/NO)

Der er vand i de fleste bygninger. Det kan være en vandbeholder, opvaskemaskine, vaskemaskine, vandhane, akvarium etc. Disse beholdere eller tilslutninger kan før eller siden lække, og afhængigt af vandets tryk, kan der meget hurtigt opstå vandskader og oversvømmelser. Dertil kan regn og smeltevand forårsage oversvømmelser med alvorlige konsekvenser.

En SafeHome Trådløs Oversvømmelsessensor monteres ved bygningens vandkilder eller udsatte rum og sender alarmsignal ved registrering af vand.
