

Anybody there?

Whether you are home or away from your home or office, the SafeHome Internet Cameras will snap pictures or record video and email, store on PC, harddisk or Internet - Day & Night

HOME • BABY • OFFICE • SHOP • WAREHOUSE

Wireless Internet Camera VGA Indoor

Surveillance • WIFI • Webbased software • Video/photo • Motiondetector

The perfect solution for surveillance of your home, office, warehouse or any other place you wish to monitor anytime – and from anywhere!

SafeHome Wireless Internet camera can be accessed by the builtin software for PC/MAC or by smartphone apps for Android and iDevice. Users are able to pan up to 300° and tilt up to 120° thereby monitoring very large surroundings.

The camera is equipped with a 67° lens for 300K photos and video recording up to 640x480 pxl. resolution and the builtin 11 infrared LED continues the surveillance even during dark period in an 8m range.

When motion is detected, the camera can be set to send e-mail alerts til multiple users or even upload snapped pictures to an ftp location, if the user has access to such.

Several users can be added as users with differentiated levels of access to settings and functions.

The SafeHome Wireless Internet Camera is equipped with both microphone and speaker making it a great solution for social networking and chatting.

Den perfekte løsning til overvågning af hjemmet, kontoret, lageret eller andet sted hvor du vil kunne se området når som helst og hvorfra som helst. SafeHome Trådløse IP kamera tilgås via den medfølgende PC software eller via iPhone app eller via enhver anden standard browser på smartphones. Herfra kan brugeren dreje 300° og vippe det 120°, så hele rummet kan undersøges.

Kameraet er udstyret med en 67° glaslinse til 300K foto og video i op til 640x480.

Med de 11 indbyggede infrarøde LED dioder kan kameraet fortsætte overvågning selv i mørke på helt op til 8m afstand.

Registreres bevægelse kan kameraet indstilles til at sende en e-mail alarm til brugeren eller uploade billeder til en ftp konto, hvis brugeren har en sådan tilgængelig. Ønsker du at give andre adgang til nogle af funktionerne kan disse nemt differentieres med bruger login/password.

SafeHome Trådløs IP kamera har både mikrofon og højttaler og giver derved mulighed for at chatte over internettet.
