

Accessory

The SafeHome Wireless Alarm system can be divided into 8 zones – each with an unlimited amount of sensors, sirens and dial-up units.

Customize your alarm to fit your needs!

Wireless GSM Dialer/Controller

Accessory for Wireless Alarm System WS500S

The SafeHome Wireless Alarmsystem WS500S can be expanded with the GSM Dialer/Control. When the alarm is triggered, this autodialer call up to 8 preset phonenumber and plays a stored message. The GSM Dialer/Controller uses a standard GSM card (2G).

The alarmsystem can also be set to ARM/DISARM/ALERT/HOME status by use of the free app for iOS and Android smartphones and the user will receive SMS upon sensor breach and power failure. Furthermore, the user can activate the PANIC function by use of SMS or APP and thereby alert surrounding of a burglary or unsecure situation.

The SafeHome GSM Dialer/Controller is wirelessly connected to the controlpanel and thereby offers the best possible security as it will continue the dialup cycle - even if the controlpanel is sabotaged.

HOTLINE SUPPORT • YOUTUBE • FACEBOOK

SafeHome Trådløse Alarmanlæg kan udbygges med GSM Dialer/Controller, så der ved alarm automatisk ringes op til maks. 8 numre, og afgiver en indtalt besked. GSM Dialer/Controller benyttes med et SIM kort (2G). Safehome GSM modul gør brugeren i stand til at fra-/ og tilkoble alarmer og ALARM/HOME tilstand, aktivere overfaldsalarm samt få status for alarmer ved brug af SMS eller den gratis APP til iOS og Android smartphones, og dertil modtager brugeren SMS ved sensor brud og strømafbrydelse. Brugere kan endvidere aktivere alarmens PANIC funktion via SMS eller APP, og derved gøre omgivelserne opmærksomme på indbrud eller udsat situation. SafeHome GSM Dialer/Controller tilkøbes trådløst til alarmanlægget og sikrer dermed bedst muligt ved indbrud, da den vil fortsætte sin opkaldscyklus selvom kontrolpanelet ødelægges.

Features / KSP

- Remote administration and alarm
- SMS upon power failure
- Autodial up to 8 receivers
- Installed in safe distance to entrypoint
- For standard SIM card
- Up to 100m range
- Easy Installation
- Powerplug and backupbattery
- Alarmsign Included

Tech specs

- Network: GSM 850/90/1800/1900 MHz
- Low battery indicator
- Dimensions (mm) / weight (g): 173/75/24, 175
- Power: (in/out): 230-240V (50Hz) 9V, 0,3A.
- Backupbatt.: 4 x AA 1,5V Alkal. (not incl.)
- Frequency: 868 MHz
- With screws, plugs, adhesive tape

Packing specs

- Blister pack, Eurohanger
- 4 language (UK, DK/SE/NO)
