## Wireless Internet Camera VGA Indoor L-Series

Surveillance • WIFI • Remote Access • Video/photo • Motiondetector

SafeHome Indoor L-Series can be accessed by the builtin software for PC/MAC or by SafeHome App for Android and iPhone. Users are able to pan up to 340° and tilt up to 110° thereby monitoring very large surroundings.

The camera provides surveillance up to 20 m. during daylight with motion detection up to 10 m. The builtin 11 infrared LED continues the surveillance even during dark period in an 8 m. range. SafeHome cameras are preset for remote access and Smartphones are easily configured by scanning a QR code.

Video can be stored directly on PC/MAC and when motion is detected, the camera can be set to send e-mail alerts to multiple users or even upload snapped pictures to an FTP, if the user has access to such.

The camera is equipped with a 75° lens for 300K photos and video recording up to 640x480 pxl. resolution.

Several users can be added as users with differentiated levels of access to settings and functions.

The SafeHome Indoor L-Series can record audio and the builtin microphone is perfect for online chat and videorecordings.
